

Alexander Halpern

Senior Software Engineer

SUMMARY/OBJECTIVE

Senior Software Engineer with over 10 years of experience building and maintaining scalable enterprise applications using Java, C#, SQL, and JavaScript frameworks. Skilled in designing modular, high-performance backends and intuitive frontends across web and financial platforms. Experienced in Agile/Scrum environments with strong focus on clean architecture, code quality, and mentoring. Passionate about optimizing performance, practices, and delivering software that exceeds business goals.

PROFESSIONAL EXPERIENCE

SENIOR SOFTWARE ENGINEER | Alkami Technology | Remote
May 2022 – Oct 2025

- Design, develop, and test digital banking platform features for multiple financial institutions using Java (later became C#) React and and SQL within a Moqui (later became .NET) framework.
- Create new loan and credit card flows, building full-stack components (Moqui XML, FTL, JavaScript/jQuery).
- Enhance admin dashboards by integrating customer-facing UI components.
- In 2024, transitioned to a new .NET-based team focused on microservices and widgets using C# and Microsoft SQL in .NET while using an AWS infrastructure.
- Collaborate cross-functionally with QA, Product, and DevOps

SENIOR JAVA DEVELOPER | Civix | Orlando, FL
Mar 2020 – May 2022

- Led full-stack development of a secure election management platform used by state clients.
- Architected and implemented new features using RESTful APIs in Java (Spring Boot) and jQuery
- Oversaw build and deployment pipelines (SIT/UAT/Production) via Azure DevOps.
- Managed and mentored a team of developers, conducting code reviews and enforcing best practices.
- Maintained database schema design for our client environments.

SOFTWARE ENGINEER | Imagine Believe Realize | Orlando, FL
June 2016 – Mar 2020

- Built and maintained Java-based (Hibernate) modules for a U.S. Navy portal system supporting 100K+ users.
- Designed UI components with jQuery, AJAX, HTML, and CSS for data-driven modules and admin tools.
- Served as Scrum lead and ran daily stand-ups, tracked blockers, and coordinated with stakeholders.
- Led customer demos and conducted QA testing to ensure compliance and security standards.
